

ESTATE WATCH™

FIND THE THREAT BEFORE IT FINDS YOU.

A NEW STANDARD IN ESTATE HOME PROTECTION

“The ache for home lives in us all. The safe place where we can go as we are and not be questioned.” Maya Angelou

Serving Florida from Orlando to Key West, Lima 5 Protec is an elite team of military veterans and security experts with a passion to provide you full spectrum security. We combine advanced technologies from the military and private sectors. Successful threats require two things – surprise and maneuver. Lima 5 challenges both with covert detection and advance warning. Our security solutions move with you as you go about your day.

DETER THREATS, BEFORE THEY CAN INFLICT HARM

You expect the best in private personal protection. The standard burglar alarm/camera model is reactive. It alerts you only when intruders are at your door or inside your home.

Law enforcement response today averages 10 to 12 minutes. This delay can pose a significant risk to your family. Your **ESTATE WATCH™** is deployed to identify and deter intruders through a series of active counter-measures including AI guided light, ‘Talk Down’ deterrence and sound. **ESTATE WATCH™** can be expanded to provide alerts or live view of life safety signals, power outages, temperature shifts, toxic emissions, elevator movement and other identified activities.

SECURE THE RIGHT SPACE, NOT THE WHOLE SPACE

We formally assess your home, commute and at-work potential threats. Our estate security is discreet and full-spectrum. Our solutions include surveillance, early warning, lighting, metal detection, access control, cyber-security, non-lethal deterrence and armed close protection. Comprehensive security can be complicated, we simplify the process.

ESTATE PROTECTION SERVICES

PERIMETER SURVEILLANCE - *Secure the Right Space Not the Whole Space*

- 24/7 Undetectable Footstep and Vehicle Detection Sensors
- Intelligent Point-To-Zoom Monitored Video Surveillance
